

PPSN Grower Report: Monchuck Farms Ltd.

Thank you Clinton for your contribution. This page has been prepared exclusively for you and has not been shared publicly.

You supplied the project with:

- 46 field years of data
- 7 different crop types
- 3 years of data

Quick Facts about your data:

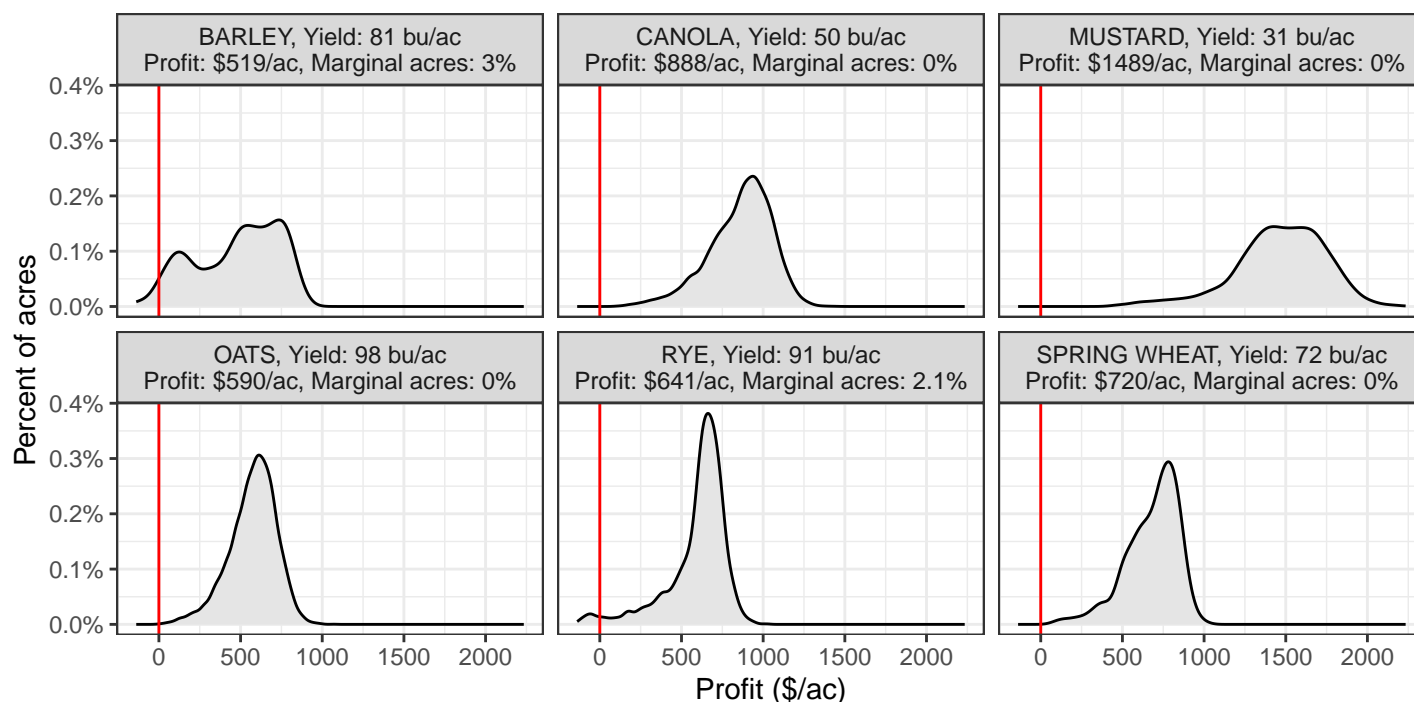

- In 2022 less than 1% of total acres were marginal (less than \$0 profit/acre)

Average yield in bushels per acre for each crop

CropType	2022	2021	2020
Mustard	31	-	-
Rye	91	53	-
Peas	-	32	56
Oats	98	-	114
Spring Wheat	72	39	62
Barley	81	42	70
Canola	50	23	46

Do these numbers look accurate? Let us know

Grower: Clinton Monchuk, Year: 2022

Thank you again for your support. We look forward to connecting with you when data collection resumes in the fall. Have a great summer!
